Report on the financial statements

We have audited the accompanying financial statements of the component unit of the University of North Texas System ("System") as of and for the year ended August 31, 2016, and the related notes to the financial statements, which collectively comprise the System's basic financial statements as listed in the table of contents.

Management's responsibility

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and presentation of the financial statements that are free from material misstatement, whether caused by fraud or error.

We are a member firm of the Chartered Accountants in Canada, Chartered Accountants in England and Wales, Chartered Accountants in Australia, Chartered Accountants in South Africa, Chartered Accountants in India, Chartered Accountants in Pakistan, Chartered Accountants in Sri Lanka, Chartered Accountants in Hong Kong, Chartered Accountants in Malaysia, Chartered Accountants in Singapore, Chartered Accountants in New Zealand, Chartered Accountants in the Philippines, Chartered Accountants in Thailand, Chartered Accountants in Vietnam, Chartered Accountants in the United States of America and the standards applicable to independent member firms affiliated with the International Standards of Auditing issued by the International Board of Standards and Practices for Certified Accountants, the American Institute of Certified Public Accountants, the Institute of Chartered Accountants in England and Wales, the Institute of Chartered Accountants in Australia, the Institute of Chartered Accountants in South Africa, the Institute of Chartered Accountants in India, the Institute of Chartered Accountants in Pakistan, the Institute of Chartered Accountants in Sri Lanka, the Institute of Chartered Accountants in Hong Kong, the Institute of Chartered Accountants in Malaysia, the Institute of Chartered Accountants in Singapore, the Institute of Chartered Accountants in New Zealand, the Institute of Chartered Accountants in the Philippines, the Institute of Chartered Accountants in Thailand, and the Institute of Chartered Accountants in Vietnam.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the risks of material misstatement of the financial statements, whether due to fraud or error. In making these risk assessments, the auditor considers internal control in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. An audit also includes evaluating the appropriateness and consistency of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to support our audit opinions.

Opinions

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of the business as of the dates and the disclosure presented are consistent with the terms of the financial statements, and the respect to changes in financial position and, when applicable, cash flows thereof for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Other matters

Required supplementary information

Accounting principles generally accepted in the United States of America require that Discussion and Analysis on pages 11 through 29 and Required Supplemental Information on pages 30-35 be presented to accompany the basic financial statements. Such information is required to be an essential part of financial reporting and is presented for informational purposes only. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, and we have not performed an audit of management's inquiries of management. The required supplementary information is the responsibility of management. We have not audited the required supplementary information and we do not express an opinion on the required supplementary information. Note 1: Summary of Significant Accounting Policies

Introduction

The University of North Texas System (the "System") is an agency of the State of Texas (the "State") and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for Annual Financial Reports of State Agencies and Universities and with Generally Accepted Accounting Principles ("GAAP").

The consolidated financial statements include the University of North Texas System Administration ("System Administration") and all institutions of the System. Amounts due between and among institutions, amounts held for institutions by the System Administration and other duplications in reporting are eliminated in consolidating the financial statements.

The System is composed of the System Administration and three academic institutions as follows: the University of North Texas (the "UT System"), The University of North Texas Health Science Center (the "UT Health System"), and The University of North Texas Dallas (the "UT Dallas").

They are structured somewhat like money market mutual funds and allow shareholders the ability to deposit or withdraw funds on a daily basis. Unemployment Compensation

The State provides coverage for unemployment benefits from appropriations made to other state agencies for System employees. The current General Appropriations Act provides that the System must reimburse the General Revenue Fund – Consolidated one half of the unemployment benefits for former and current employees from System appropriations. The Texas Comptroller of Public Accounts determines the proportionate amount to be reimbursed from each appropriated fund type. The System has only one appropriated fund type. The System must reimburse the General Revenue Fund 100% of the cost for unemployment compensation for any employees paid from funds held in local bank accounts and local funds held in the State Treasury.

Unemployment compensation is on a pay as you go basis through the State, with the exception on State, ngrk as2_2 1 Tf i15f -

The pledge no longer meets the criteria of an unconditional promise to give and has been reversed during the year ended August 31, 2016. The reversal is shown in the Statement of Activities as an adjustment to prior year contributions receivable.
